## The Reliable Fenestration Solution Providers

SAMBROS SOLUTIONS PRIVATE LIMITED is a Venture envisioned by like minded individuals with rich experience of over 20 Years in Sales & Marketing, Production & client servicing!

### *Our Ethos*

SSPL (Sambros Solutions Private Limited) is based on basic ethos of Delivering Safety, Elegance & Trust!

### *Our Endeavour*

To meet your Quest for Fenestration with a wonderful experience that results in making your Home an abode of peace, elegance & safety!

### *Our Commitment - You Get What We Commit!*

At SAMBROS WE UNDERSTAND a HOME is built with Dreams, from hard earned money and an underlying expectation & wish that all **elements that constitute our HOME are Value for Money & long lasting! We stand committed to deliver Value for every rupee being spent with us .... We strongly believe in creating a lasting bond with our valued clients.**

**A**t SSPL we will spend time to comprehend your specific needs and suggest versatility in design and function that can be uniquely configured into a variety of customized combinations for maximizing views and enhancing lifestyles as per your taste & usability!

SSPL's leading edge technology & constant effort at bettering our services takes the window manufacturing one step further by approaching every window or door as an integral design element and as a result, our customized products are fit for projects ranging from low budget family homes to high quality family homes to superior architecturally designed and commercial buildings.

SSPL Doors & Windows come with a 10 year warranty on frames and 1 year warranty on hardware against any manufacturing defect.

We at SSPL Specialize in uPVC Door and Windows and Also Offer Pioneering Services in the Following:-

## UPVC Windows

**S**SPL Windows keep your Home Interiors well shielded against the harsh weather conditions as against the traditional, clumsy wooden windows that are prone to water based damage, fire and termite attack. SSPL windows are designed to accentuate the placidity of your dwelling in monsoons and keep you free of external noise chaos hence assimilating peaceful environs in the insides of your home.

## UPVC Doors

**B**eing a blend of safety and style SSPL uPVC doors are crafted with an aim to cater serene dwelling to our clients. Noise proof uPVC doors make the insides of your house peaceful while the waterproof uPVC doors keep you shielded from monsoon weather chaos. Easy to operate and fuss-free to maintain, these doors are a better choice over the wooden doors. With a perception to create your safe haven, we at SAMBROS SOLUTIONS strive to create masterpieces peculiar to your needs and preferences.

## Balcony Railings

**U**PVC Railings from Sambros provide cost effective and elegant alternative to traditional Wood, SS structures that tend to be monotonous.

## Facade

**U**PVC facades from Sambros offer excellent insulation from noise and also provide cost effectiveness with a choice of varied designs.

## Kitchens

**S**SPL Kitchen solutions are based on core uPVC features of Water, Termite & Weather resistance not to forget the FIRE RETARDANCY that uPVC offers.

## Why SAMBROS uPVC Fenestration Solutions

Sambros Solutions gives high consideration to design requirements and customer's personal needs. The profiles systems that we use are developed with precision & are comfortable, economical, strong, and consist of an environmentally friendly material. SSPL uses design elements & materials according to the weather and construction requirements of the Indian Sub continent. The Hardware used is of good Quality and adds durability to the structures and ensures minimal maintenance, even over prolonged use.

SSPL offers beautiful designs that come in different shape and colors that are stylish and give a sophisticated look to your windows.

**THE INHERENT CHARACTERISTICS OF UPVC** combined with thoughtful consideration to design requirements and customer's personal needs makes our windows worthwhile.

## Eco Friendly & Weather Resistant

Sambros Solutions uPVC windows and doors profile comes with eco-friendly stabilizers. The extrusive process of Sambros Solutions uPVC window and door profiles is relatively energy efficient, compared to other materials. Another benefit where uPVC has been specified as an alternative to wood is that it helps in curbing deforestation. Besides they can be fully recycled and reused for the production of uPVC profiles. Low thermal conductivity & seamless fitting/installation makes SSPL windows & doors weather resistant.

## Security

**S**ambros Solutions uPVC windows and doors offer exceptional security. Fitted with multi-point locking hardware, it is extremely difficult to break in through a locked window / door. Sambros Solutions windows can also be fitted with most of the security hinges currently on the market, keeping you and your family safe. uPVC window are fire retardant. They are engineered with the safety of your loved ones and property in mind.

## Low Maintenance

**S**ambros Solutions Windows and doors do not need maintenance, even after longer use. The use of uPVC dust proof windows has grown in popularity due to low maintenance needs. Windows and doors of other material needs painting as a part of maintenance since they may be rust or termite prone. uPVC windows and doors are the best preferred in the market today as they need very minimal cleaning and are easy to maintain. uPVC windows and doors featured for low maintenance. Just a regular wipe keeps windows and doors clean.

## Save Electricity

**U**PVC windows are ecologically friendly because they prevent the heat and energy loss that occurs with standard, traditional and window frames. uPVC windows can save upto 30% on energy cost. Since the thermal conductivity is very low, you could expect best results of Air-conditioning as the air loss is minimised in uPVC windows. This means your house remains cooler for a longer period and actually requires less energy to retain cool air and does not let air leak through gaps found in ordinary windows. In turn, this will be reflected in your energy bills.

## Sound/ Dust Proof

**S**SPL UPVC windows with good weather sealing are essential for effective sound insulation. uPVC windows profiles are welded and have multiple chamber construction. These two factors combined with the appropriate thickness of Quality glass, Gasket that we use at SSPL, provide the finished window with excellent acoustic insulation, reflecting sound waves before they have the opportunity to create vibrations and noise. By installing Sambros Solutions uPVC windows in your home, the noise reductions of up to 40-45dB can improve your sleep, decrease stress, and improve a work environment and concentration to your home.

## Your Space Our Design – A Wide Range of Designs to Choose From

SSPL offers a wide range of designs for doors & windows that can be customized keeping in view the architectural plans, design language of your home and safety in mind.

### UPVC Fixed Windows

**F**ixed Windows are non-opening windows intended to allow light into the room, offer an unobstructed view of outside and enhance the aesthetic of a home. We at SSPL offer customized designs and options to pair this window type with other Windows to create a unique style statement.

### UPVC Casement Windows

**S**SPL Casement Windows are practical and are designed with expertise & care to suit your home, whatever is its style. We have them Tailored with precision and offer high fitting/installation standards. Our casement windows are among the most popular window designs.

### UPVC Sliding Windows

**H**unted by SPACE CONSTRAINTS? Sliding Windows from SSPL that are slightly raised above the track for smooth slide and also preventing dust from settling down in the track. Our Sliding windows are ideal for homes that require space-economy.

## Tilt & Turn Windows

**T**ricky places, cleaning windows seem killing! Don't worry SSPL's Tilt and Turn windows combine versatility with a smart, simple style ideally suited to modern homes. Just by turning the handle of Sambros Solutions tilt and turn windows once it opens the top slightly for secure ventilation. Twist the handle again and the window will swing inward on its side hinges for easy cleaning.

## Panorama Windows

**S**SPL Panorama Windows evoke exuberance and elegance at the same time. They enhance your home interiors, adding just the perfect look to it. They are of the highest quality standard and are usually used in areas which can feature large glass elements with large glass surfaces.

## Top Hung Windows

**S**ambros Solutions top Hung windows are like traditional casement windows, they can be used independently or in combination with other windows.

## UPVC Doors

Being a blend of safety and style SSPL uPVC doors are crafted with an aim to cater serene dwelling to our clients. Noise proof uPVC doors make the insides of your house peaceful while the waterproof uPVC doors keep you shielded from monsoon weather chaos. Easy to operate and fuss-free to maintain, these doors are a better choice over the wooden doors. With a perception to create your safe haven, we at SAMBROS SOLUTIONS strive to create masterpieces peculiar to your needs and preferences.

## Casement Doors

Making a great first impression on your door step, exclusively designed, SSPL doors are the perfect way to add charm and character to your home. You'll find that our doors are virtually maintenance-free, meaning you can enjoy them with little fuss for years to come.

## UPVC Sliding Doors

No matter how much space we have, more space, especially at the entrance is always welcome! As the name suggests, SSPL Sliding doors save space by making two or more frames slide horizontally on tracks to the left or the right. Being slightly raised above the track for smooth slide they also prevent dust from settling down in the track. Sliding doors are affordable option to bring more light into your home, as these cost effective doors can support large spans of glass and have a relatively slim vertical profile. This allows you to maximize the amount of light that can enter your home, showcasing the space to best effect.

## Internal UPVC Doors

SSPL Internal Doors are made to measure and are often referred to as "**Never Paint Again**" Doors and are a popular choice for many busy home owners at this time. We have wide range of styles with Glass Inserts, uPVC cut out boards that can be picked to suit your requirements! The appeal of SSPL uPVC doors lies both in simplicity and in **elegance**. Simplicity because the doors are virtually maintenance free, since they will never need painting and they will never crack or warp, **Elegence** because of the vast range of glass styles, uPVC styles, colours and designs.

## UPVC Lift & Slide and Slide & Fold Doors

SSPL UPVC Lift & Slide Doors make your entrance grand and welcoming with more flexibility and comfort, the usability of slide and fold doors and windows can definitely add a new dimension to your homes and offices. The stand-out convenience feature of our Patio "Lift & Slide" door is the extremely simple movement of large and heavy doors. Lift & Slide doors allow barrier-free access to terraces or balconies, and can also be used just as room dividers. On the other hand SSPL **Slide & Fold Doors offer the possibility to fold** all door frames and push them to the side thus saving space, offering an opening up to width of 6 mts. Our Fold and Slide doors offer generous and barrier free access to terraces, conservatories, conference rooms, wherever needed.

## Blinds Between Glass

**S** SPL offer the addition of blinds or shades to your Sambros Solutions Windows and doors enhances your privacy and augments their styling immensely. The deeply engaging process of Either choosing from a list of pre installed blinds and shades between the glass or resorting to the provision of aftermarket blinds and shades will definitely go on to add noteworthy functionality and style to your Sambros Solutions windows and doors.

## Features & Benefits

- ❖ Since the blinds are well sealed, they tend to require less maintenance and are protected from dust.
- ❖ Blinds between glass outsmart traditional blinds by overcoming the risk of anyone, especially children getting hurt by the pointed edges of the blinds.

## Switchable Glass

**S** ambros Solutions Switchable Glass Partitions are widely used for internal partitioning due to their ability to interchange between clear and private. Also termed as privacy glass by many, it is an electrically switchable glass with modifiable opacity that uses technology to transact between transparency and opaqueness through the application of voltage. It can change from clear to a frosted appearance at the flick of a switch while allowing light to pass through from both side-glasses.

## Features & Benefits

- ❖ A switchable glass film is used to protect the glass from any sort of damage.
- ❖ The technology is contemporary & impactful.
